Robert Costa discussion about switch to IHRA

Not affecting most racers.

IHRA is pushing the Sportsman Racing side, No Top Fuel etc.

World Finals in October

Track points leader after Labor Day will be track representative/ participant at Finals, also ET Team Finals winners from all Divisions go to Finals.

Pays \$300 for 1st round then more per rounds after that.

Track will be in a Division consisting of Texas and New Mexico.

ET Team Finals are at Xtreme Raceway Park in September 1/8 mile track all concrete.

NHRA Certs accepted, rules basically the same except to 9.0 no cert required.

IHRA cert, license etc. not normally accepted at NHRA tracks.

An "X" number from IHRA is required to be in Summit Super Series.

Can cross license from NHRA to IHRA

It has always been hard to get information back, for track, from NHRA. Robert just calls the Owner of IHRA and gets answers.

Chassis certs will be 2 this year and maybe ongoing as 2. IHRA will be at the track. NHRA will be at another site to be decided.

Track will run ¼ mile events and 1/8-mile events through the year.

Some discussion on the percentage of event payouts to winners, runner up, quarters etc.

Further discussion was ongoing about the IHRA switch.

Robert Salas and Erika Martinez announced their engagement.
